

Environmental Policy Statement

Responsive Engineering is the umbrella brand for four companies, Weldex, Streamline, Pressex and Kingsway.. The unique combination of these companies, their capabilities, experience and resources, provide customers with single source access to specialist engineering services. The companies work in close collaboration to deliver customer solutions and they function on the basis of common business practices, systems and policies. Therefore, this environmental policy is common to all businesses.

Responsive Engineering recognises that its activities impact upon the environment both through its routine internal operations, its development, and through its influence and effects on the wider community. It acknowledges a responsibility for, and a commitment to, protection of the environment at all levels. The business will comply fully with environmental legislation and is in addition committed to continued efforts to:

- Promote environmental management policies and practices at every level and in every area of the business;
- Increase awareness of environmental responsibilities among employees;
- Minimise waste and pollution and develop and operate environmentally sound waste management procedures;
- Continue to reduce the consumption of fossil fuels and to incorporate long term strategies for energy efficiency into planning and development;

Continue to encourage and facilitate modes of transport used by the business which minimise environmental impact;
Reduce water consumption wherever practicable;

Promote a purchasing policy which will give preference, as far as practicable, to those products and services which cause the least harm to the environment;

Avoid wherever practical the use of environmentally damaging substances, materials and processes;
Maintain the grounds and buildings of the business in an environmentally sensitive way;
Progress in implementing this policy will be reviewed at least annually.
